

DLMS “Jump Start”

*Defense Logistics Management Standards
Office (DLMSO)*

**Supply PRC
Meeting**

**28 November
2006**

Overview

- Background
- Concept
- Jump Start Program
- Program Highlights and Update
- Summary

Background

“This memorandum established policies for the total elimination

T&L Memo: Migration to the Defense Logistics Management Standard (DLMS) and Elimination of the Military Systems (MILS), December 22, 2003

**AT&L continues to support DLMS migration
IR recommended another memo
meeting with Mr. Paul Brinkley (BTA)
ad Chart” requested for proposed “Jump Start” program
riority Transactions” identified**

**p Start Program Management Plan (PMP) developed and approved
ouncement Memo July 24 '06: meetings with BTA on program sp**

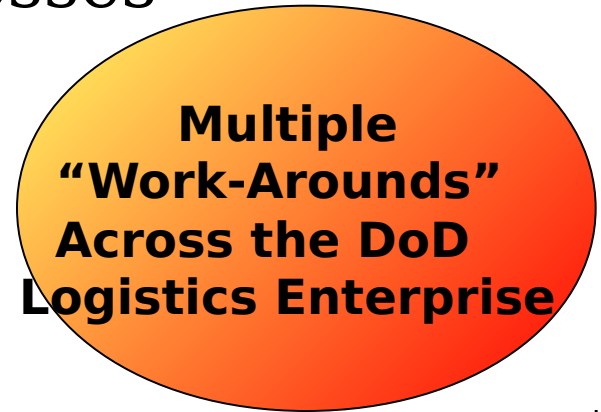

“I'll do whatever it takes to help make this happen.”

Paul Brinkley, DUSD (BT)

Why is DLMS Migration Important?

- MILs formats have become a serious constraint on business processes
 - 40 year old technology
 - Fixed Length
 - Hidden data content
 - Embedded data content
 - Non-compliant date format
 - Redundant data perpetuated
- DoD requires an information exchange process that will support Business Transformation initiatives. DLMS addresses all the above and more...

DLMS “Jump Start” Concept

- Encourages DLMS migration (X12 or XML) by providing “jump start” funding incentives (from BTA)
- Phased, coordinated implementation of current and future high priority (e.g., RFID, IUID) transactions
 - Supports OSD Business Transformation priorities
 - Provides near term process improvements
 - Gives Components experience in implementing the DLMS

DLMS Migration Impact

- The DLMS incorporates new and expanded data content supporting process enhancements requested by the Components.
- Business Transformation initiatives are enabled by DLMS in the use and exchange of data rich information formats such as:
 - Radio Frequency Identification (RFID) technology
 - Item Unique Identification (IUID)
- The DLMS supports new and innovative practices that require a quicker response to data needs in programs such as:
 - Performance Based Logistics (PBL)
 - Prime Vendor
 - Standard Financial Information Structure (SFIS)
 - Commercial Asset Visibility (CAV)

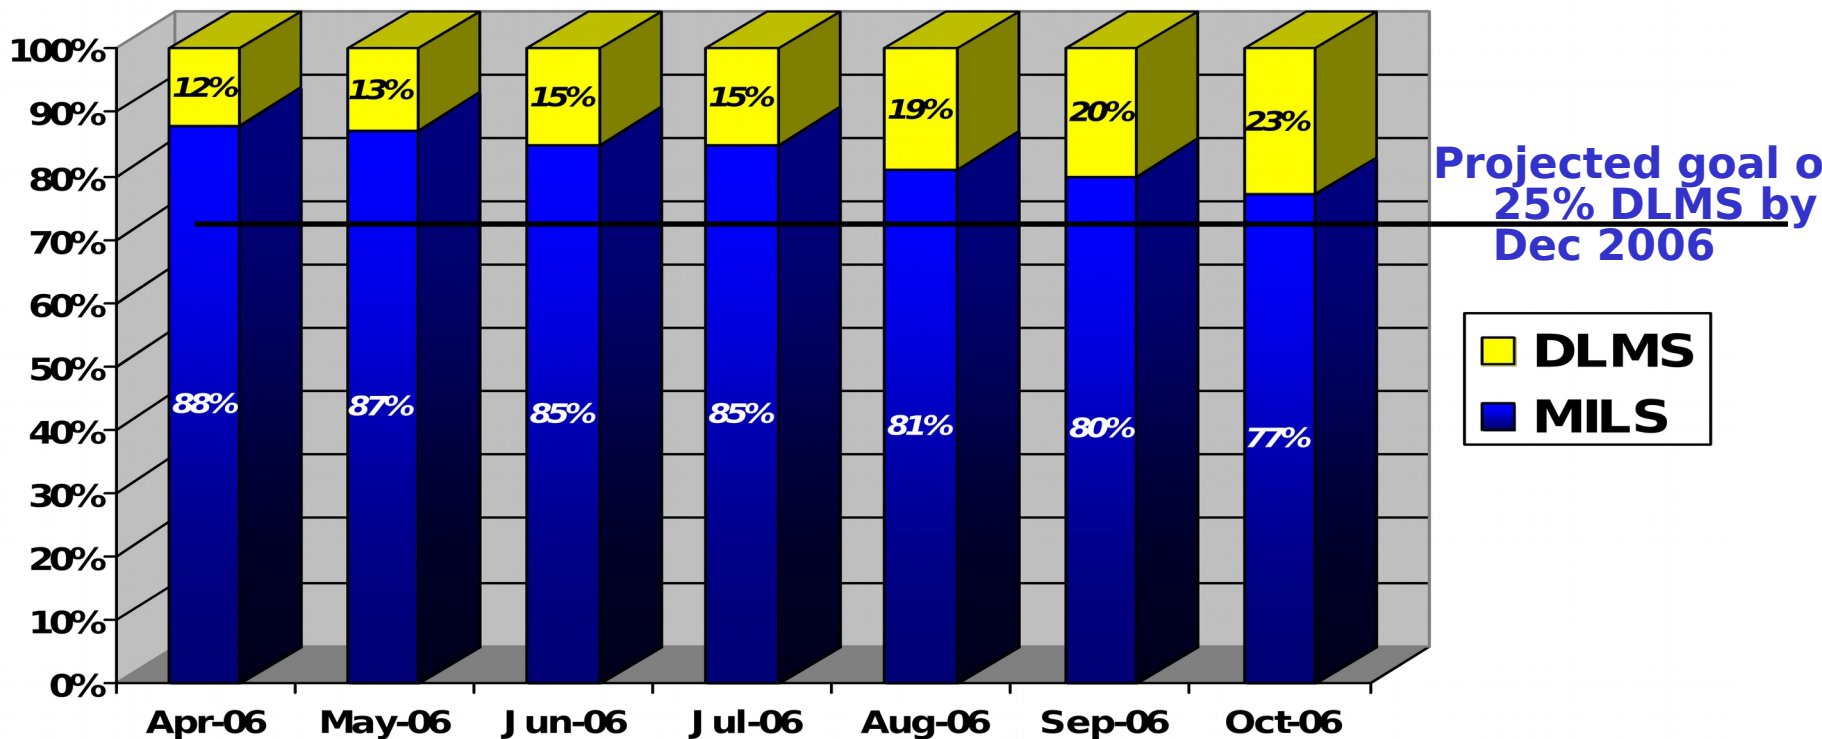

DLMS Jump Start Highlights

- Program Highlights:
 - Provides “seed” funds (from BTA) for DLMS migration implementation; ERP implementation focus
 - Provides phased implementation & support strategy:
 - Phase I: Transactions supporting RFID & IUID receiving processes
 - Phase II: Transactions supporting SFIS and additional IUID functionality
 - Phase III: Balance of DLMS transactions
- Migrations already underway: DSS, BSM, Army LMP.

Jump Start Program Metric

- Percentage of all MILS and DLMS transactions processed IN and OUT of DAASC
- 16.4 million DLMS processed in April, and 29.8 million DLMS processed in October
- DSS and BSM migrations are contributing to the goal

DLMS Jump Start Update

- Announcement Letter and Program Management Plan signed by DUSD (FM) on 24 July 2006
- 17 systems nominated for FY 07:
 - Air Force 2
 - Navy 4
 - USMC 6
 - TRANSCOM 5
- BTA/DLMSO analysis completed
- Awaiting BTA funding and details

DLMS Jump Start Program Assistance

- Components will have implementation assistance:
 - DOD Support (BTA)
 - DLA Support
 - DLMSO Support
 - DAASC Support
- Planning considerations:
 - Implementation Plans
 - Testing Plans
 - Risk Management Strategies
 - Status Reports

Summary

- Summary
 - DLMS migration underway (FY 06 starts: DSS, BSM, LMP)
 - High-level game plan formulated for Jump Start incentives
 - BTA announcement signed and Program Plan approved
 - Components nominated 17 systems for conversion start FY 07
 - Successful migration examples available - Lessons Learned
 - Experience with conversion process mitigates cost over time
- Next Steps - the Implementation Strategy
 - Approval and funding announcements by BTA
 - Project initiation
 - Posturing for the future based on BTA Priorities

Jump Start Information
